## **Introduction**

Article 66B of the Annotated Code of Maryland requires the Planning Commission to prepare an annual report which summarizes planning and development activity, analyzes its consistency with the Master Plan, and looks ahead to future planning issues.

The Brunswick Planning Commission was first established in 1963. The early Planning Commission members helped to prepare the City's first Master Plan, Zoning Ordinance, and Subdivision Regulations, which were adopted in 1967. The purpose of the Commission is to work to implement the Master Plan through the application of the Zoning Ordinance and Subdivision Regulations in development decisions, and to advise the Mayor and Council on a wide variety of matters relating to the physical development of the City, such as rezoning requests, annexations, and facilities planning. In 1998, the Planning Commission completed a comprehensive review and revision of the Brunswick Zoning Ordinance and began review of the City Subdivision Regulations, which was completed in 2000. The Design Manual for Public Improvements was approved by the Mayor and Council in 2000.

In 1999, the Mayor and Council of Brunswick established the Code Enforcement Specialist position under the supervision of the City Administrator and to assist the City Planning and Zoning Administrator with Zoning Enforcement. The duties of the Code Enforcement Specialist are to enforce nuisance codes established in the City Code of Ordinances as well as enforcing the Zoning Ordinance. Because of workload, the Zoning Enforcement Assistance is limited to site investigations and issuance of citations.

While the City administers the Subdivision Regulations and Zoning Ordinance, the authority for Building Permits & Inspection, Sediment & Erosion Control, Stormwater Management, Flood Plain Ordinance Administration & Enforcement, and Forest Resource Ordinance has been delegated to Frederick County. The City Planning and Zoning Office processes Zoning Certificates and development applications and is the local coordination agency for the delegated authority items. All Building Permits are reviewed and approved by Frederick County after issuance of the Zoning Certificate by the City.

Since the approval of the 1998 County Brunswick Region Plan, growth has steadily increased in the City. This has resulted in the necessity to expand the responsibilities of the City Planning and Zoning Office to include Public Works Administration and Water & Sewer Administration related to development. In 2004, the Planning and Zoning Office began processing of Temporary Dumpster Permits for dumpsters located on public areas, and Right-of-Way Obstruction Permits as part of the Public Works Administration provided by the Planning and Zoning Staff.

Also, due to problems associated with applicant compliance with City Requirements, the Planning and Zoning Office began issuance of the Use and Occupancy Permits for new and renovated building construction. This entailed receipt of the U&O Permit from County Permits & Inspection, processing, City Agency Coordinate, and inspection of the projects for final approval and issuance of the U&O Permit. Additionally, the Planning and Zoning Staff began providing routing and approval for the City of Building Permit Applications through the Frederick County Permitting System.

## **Population Growth**

The estimated population for the City of Brunswick as of December 31, 2005, was 5,913 persons. This figure is based on the following formula:

	<b>5,697</b>	(2004 population estimate as of December 31, 2004 (see 2004 City of Brunswick Annual Planning Report for more information))
+ (80 X 2.7) =	<b>216</b>	(number of <b>Use &amp; Occupancy</b> permits issued by the City of Brunswick for new residential units in 2005 X County's estimated <b>occupancy rate</b> of 2.7 persons per unit)
-----		
	<b>5,913</b>	<b>(2005 estimated population for the City of Brunswick)</b>

This represents a 4% increase from the 2004 estimated population.
